This plan covers the Old Testament and the New Testament separately. One may read either through the year, or read the whole Bible through the year, getting some OT and a NT chapter for each day. The NT pace schedules Saturdays and Sundays off

Each section seeks to follow in order of time that events occurred. You may be reading a book of history, then jump to a prophet or two. That is because the time when the prophecies were expressed was at that point in the history

A break in the pace of reading is done by reading Proverbs on Saturdays and Psalms on Sundays

Christmas Day has the reading from Luke of the Christmas story chapters.

In 2012, there are 366 days in the year, owing to the fact of it's a leap year. The month of February has an added day, the 29th. There are 52 of each day, except for there being 53 Sundays and 53 Mondays.

This Schedule is compiled and maintained annually by:
